REFLECTIONS - 2023-24

“Every brilliant Experiment, like every work of art, Starts with an act of imagination” – Jonah Lehrer

Dear Parents,

“Educational Fair” is one of the most prestigious and flagship events conducted at our school every year.

LIS aimsto provide an effective platform to students to explore, express and experience their creativity through this Educational Fair.

This event gives all our students an opportunity and platform to showcase their inner talents on a wide variety of subjects from the academic stream as well as other areas of the child’s interest (which might be away from their regular Academic learning) through working models, charts, presentations, and much more.

We are excited to start the preparations. We urge all parents to take time, sit with your children, explore their areas of interest and inform the class teacher about their participation. The last date for the submission of your Interest/Consent by **Sunday 7th May 2023** for students from Grade 1 and above.

Note: We are planning to organize the Annual Arts & Science Exhibition (Reflections-2023) in the last week of May 2023

Important Information:

1. All the projects should be labelled with student name, class, section, subject and project name.
2. A small write-up about each project on an A-4 size paper is essential.
3. Students can make/present a maximum of 2 projects.
1 project from core subjects (English, Math, Science, SST and Second Language)
1 project from Third Language/ Graded Subjects.
4. Topics of the projects will be provided by the class teacher by 22nd April 2023.
5. All projects should be submitted by Sunday 21st May 2023.
6. Best Projects from each category will be awarded by the School Managing Committee and the students will also be given academic points in the internal assessment of that subject.

Best regards,

Principal
