

LOYOLA INTERNATIONAL SCHOOL

IGNITED MINDS

Welcome to Our Year-End Edition

Every ending carries a quiet sense of gratitude – for lessons learned, milestones reached, and journeys shared.

As we close this calendar year, this newsletter reflects the spirit that carried us through: curiosity in classrooms, confidence on stages, compassion in action, and community at heart.

Thank you for being part of Loyola's story this year. We look ahead with optimism and wish you and your loved ones a peaceful holiday break and a bright, fulfilling New Year.

Happy new Year!

Anandotsav - Annual Day 2025

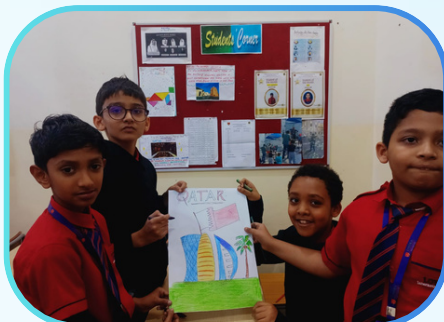

Anandotsav 2025 was a celebration many of our families will fondly remember. Held at the QNCC Conference Hall, the Annual Day unfolded across three sessions, where students brought meaningful theme to life through dance, drama, and music. With performances celebrating celebrations beyond boundaries, every act reflected months of preparation, discipline, and teamwork. The evening also honoured academic excellence with the felicitation of board toppers and achievers, and marked the release of the school yearbook. Anandotsav stood as a proud reminder of Loyola's commitment to holistic growth.

A Nation in Our Hearts

Loyola marked **Qatar National Day** as students expressed national pride through doodles, art, puzzles, quizzes, special assembly and thoughtful discussions, while classrooms transformed into spaces of reflection and learning. Our student voices highlighted why Qatar holds a special place in their hearts. It was a celebration marked not by grandeur, but by genuine appreciation and belonging.

Celebrating Childhood - Children's Day

Children's Day was a pause in our busy routines – a day to simply celebrate childhood in all its colour and cheer. Laughter filled the campus as surprise visitors, games, rainbow food plate activity and thoughtful gestures from teachers turned ordinary spaces into moments of delight. Our teachers even laid out an entire assembly dedicating to our little ones.

Our kindergarteners added a special sparkle with their Best Out of Waste ramp walk, reminding us that creativity grows beautifully when imagination meets care for the world.

Connecting to Roots

Aseel Initiative, under the Ministry's My Values Shape My Identity programme, students strengthened their understanding of values, national identity, and cultural respect through prayer, reflection, and purposeful action.

Aqwamu Qeelan offered students a reflective Quranic journey. Through immersive spaces and thoughtful engagement, students connected meaning, emotion, and faith in a way that stayed with them.

Sheikh Jassim Holy Quran Exhibition introduced the Quran through visuals, phonetics, and joyful discovery. It marked a gentle beginning to faith-based learning, rooted in exploration, respect, and connection to heritage.

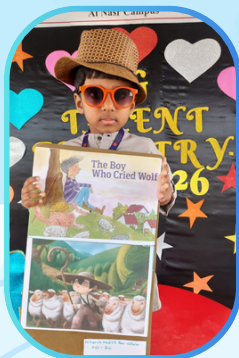

Arabic Language Day celebrated the beauty of a language that carries history, culture, and belonging – brought alive through creative, sensory classroom experiences.

Kindergarten Special

KG Talent Tapestry – It felt like a room full of stories. Through short role plays, poems, and speeches, helped along by handmade props, our kindergarteners spoke, acted, and performed with a confidence that surprised even themselves.

In Kindergarten, learning often begins with what children can see, touch, and enjoy. On **Purple Day**, our students explored the colour in meaningful ways that supported early language skills, creativity, and social interaction, making learning both natural and delightful.

On **World Food Day**, our kindergarteners turned into tiny chefs — layering sandwiches, choosing toppings, and adding colour with fruits of every shade. As they worked, they learned that a rainbow on the plate brings different nutrients and keeps our bodies strong.

With scissors, glue, and a lot of excitement, our kindergarteners brought their **dreams to life** through colourful collages. From favourite places to future roles, each creation was personal, and sharing it aloud helped our young learners find their voice.

Learning Through Doing

Learning about the circulatory system became engaging and easy to grasp as students followed how the heart pumps blood through the body. Visual learning and thoughtful explanation helped students connect ideas, ask questions, and see science as something close to everyday life.

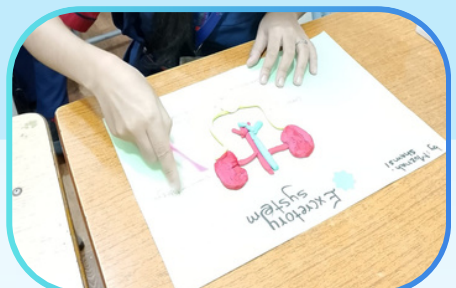

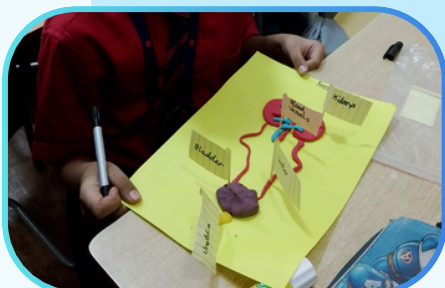

Mathematics unfolded on **Math Day** through creativity and real-world application as students painted patterns, built clocks, and measured their surroundings. The focus was on understanding, teamwork, and seeing math as a useful part of everyday thinking.

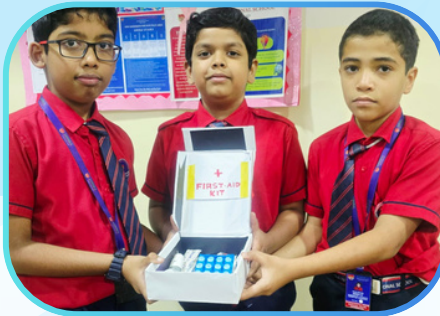

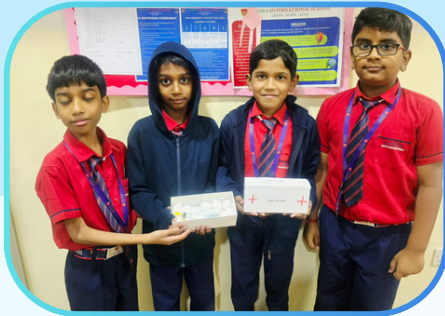

Grade 3 students got their hands dirty as they learnt how everyday waste can return to the soil as something valuable. The **compost pit activity** helped them see sustainability as a small habit that begins with mindful choices.

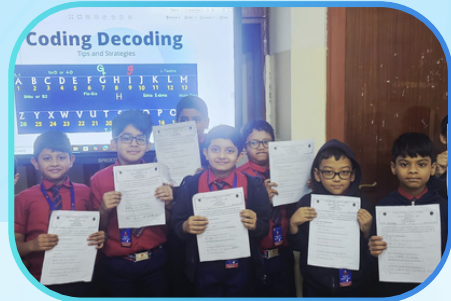

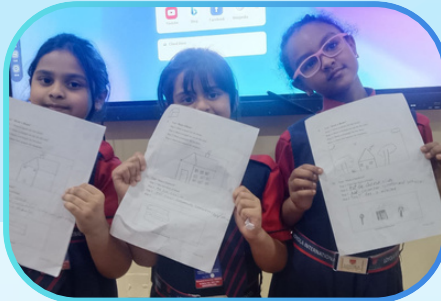

Grade 4 students shaped and labelled the **excretory system** using clay, turning abstract concepts into something they could see and touch; deepening their understanding!

Working in teams, students created **first aid boxes** and explored the purpose of each item. Through role plays, they practised simple responses to everyday health & safety situations

On **World Computer Literacy Day**, students explored devices, simple functions, and safe digital habits and understood how technology supports learning when used thoughtfully and responsibly.

World Science Day for Peace and Development : Across grades, students engaged in experiments, scavenger hunts, and demonstrations that showed how science helps solve real-world problems and creating a sustainable future.

World Soil Day: Students examined different layers of soil through poster-making and observation activities, learning how soil supports plant life and ecosystems. The day helped them connect everyday food and nature back to the ground beneath their feet.

Our students joined hands at Al Jamil Beach for a **beach cleaning activity** as Scouts & Guides . They picked, sorted, learned, reflected and walked away feeling proud of doing their part for the world they will inherit.

Celebrating Our Champions

Our Principal represented Loyola International School at the 1st **CBSE International Skill Expo & Guidance Workshop** in Dubai, engaging with educators and institutions from across the globe. The experience offered fresh perspectives on skills, guidance, and the evolving needs of learners. These insights now return to campus, quietly shaping how we prepare our students for what lies ahead.

Together, We Run as One

At the **Unity Run**, Loyola students carried forward the spirit of unity and pride – celebrating Sardar Vallabhbhai Patel's legacy and the power of standing together as one nation. Because unity isn't just a value we teach; it's one we live.

**Aadhira Jaganathan
Pradeep**

3rd Place – Sub Junior Category
RTQ Drawing Competition

Vaiga Sarath

First prize
Light Music Competition
CAAK Fest 2025

Ram Niranjana

First Prize
Rapid Chess Tournament

Emine Juan Ali Kalathingal

First Prize
Qatar Through Our Children's Eyes.

Hanvika Vollala

First Prize
Rapid Chess Tournament 2025
(U-7)

Rahaf Md Ikrima

Her art displayed at the
Doha Film Festival
Opening Night

Akshaya Kanteti

Performed at the **Winter**
Tbilisi Art & Cultural
Festival 2025,

Sukrithi Sridhar Iyer

Second Place
Drawing
Competition(theme:
Planting Trees and
Preserving Green Cover),
My Country - My
Responsibility
Competition

Ashwanth Lakshmanan

Third Prize
Project on recycling and
using consumed materials
to create new, useful
products, as well as
designing a model to
promote water
conservation.

Sukrithi Sridhar Iyer

Ayaan Darsan Ajith

Rahaf Md Ikrima

Their artworks, created under the theme "World Science Week for Peace and Development," were selected for exhibition at the **DFI Festival** in Katara Cultural Village

Looking Ahead

As we move further into the term, exciting experiences and celebrations await our students. Each new month brings fresh opportunities for our students to grow, celebrate, and make meaningful memories together. Here's what's coming up:

**Annual Sports Day
Field Trip**

*Thank you for being part of another meaningful month at Loyola.
Here's to more learning, growing, and celebrating together!*

*Stay connected and catch all the latest moments from school life
— follow us through the links below for updates, photos, and more!*
